Constipation, liver and kidney diseases are cured by Brown's Iron Bitters, which enriches the blood and strengthens the whole system.

#### How to Tell Good Eggs.

A good egg will sink in water. A boiled egg which is done will dry quickly on the shell when taken from the water.

The boiled eggs which adhere to the shell are fresh laid.

After an egg has been laid a day or more the shell comes off easily when boiled.

A fresh egg has a lime like surface to its shell.

Stale eggs are glassy and smooth of shell.

Eggs which have been packed in lime look stained, and show the action of the lime on the surface.

Eggs packed in bran for a long time smell and taste musty.

With the aid of the hands a piece of paper rolled in funnel shape and held toward the light, the human eye can look through an egg, shell and all.

If an egg is clear and golden in appearance when held to the light, it is good; if dark or spotted, it is bad.

The badness of an egg can sometimes be told by shaking it near the holder's ear, but the test is a dangerous one.

Thin shells are caused by lack of gravel, etc., among the hens laying eggs.

### The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; it is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

29 Dearborn Ave., Chicago, Nov. 9.

I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel some of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACK.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

## CALIFORNIA GUIDE BOOK.

A neat pamphlet from the Pacific Coast Land Bureau, containing valuable maps and much useful information, has just been issued. The bureau has land all over the coast to dispose of, including the railroad lands. The introduction says: We claim that facts only need be told to show California to be, what she really is, in soil, climate and productions; in health, pleasure and happiness; in enterprise, progress and success: The garden spot of the earth.

A few years ago California imported all she consumed. To-day she exports more in bullion and produce than any other State in the Union.

California has 89,000,000 acres of land suited to profitable husbandry. Of these 40,000,000 are fit for the plow, while the remainder is excellent for stock-raising, fruit-growing, and all other branches of agriculture. This agricultural area exceeds that of Great Britain and Ireland, yet England contains 332 inhabitants to the square mile; Ireland 225; California, 4. California needs population—she is susceptible of sustaining millions where she now has thousands.

With industry, economy, sobriety and honesty of purpose, no man in this State, with rare exceptions, will fail of success in the ordinary pursuits of life.

California contains a great area unsettled and undeveloped; with as rich soil and as fine climate as ever the sun shone upon—a country entirely exempt from violent storms, and one every way fitted, when ordinary prudence only is exercised, for crowning success.

A wrong impression has gone abroad in regard to the disposition of the land-owners in our State. The owners of large tracts of land are disposed to encourage the better class of immigration by subdivision of their holdings, which is resulting in a direct benefit to the State, and a large proportion of the new settlers are locating at once on our agricultural lands.

## EDITORIAL NOTES.

More than half a million people are employed in the coal mines of Great Britain, and last year more than 1,000 were killed in them, the average of accidents being about three for every working day in the year. The annual product is over 150,000,000 tons, or more than twice that of the United States.

Dakota is getting a large share of this Spring's emigration. Two trains a day leave Chicago, bound through to that Territory; and it is estimated that its southern half will contain before the end of the year a population of over 350,000. One peculiar feature is that fully 90 per cent. of the present inhabitants are Americans.

It is not a very pleasant fact, nor one that is of good cheer to young men entering the ministry, that "more than half the ministers on the roll of the Presbyterian Church, when they die, leave dependent widows." Yet this is the statement made by the Board of Ministerial Relief.

California wines and brandies are being forwarded to the East in large quantities, the receipts at New York in April being greater for the same period than previous receipts from any quarter.

Leadville during the past five years has produced 28,000,000 ounces of silver, 140,000 tons of lead and 26,000 ounces of gold.

The only influx of capital in Ireland about the present time seems to be capital punishment.

A landslide occurred last night three miles west of here on the Dakota Division of the Chicago, Minneapolis & St. Paul Railroad. Six hundred feet of track went into the Missouri and disappeared entirely, a high bluff towering above the track sinking down and causing an impassable barrier.

## EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

### The Late Destructive Cyclone in Missouri—The Country Laid Waste and Lives Lost.

MACON, Mo., May 14. The cyclone that occurred here last evening at 8 o'clock caused great destruction, both of life and property. The storm, coming from the southwest, struck the city about the west corner, damaging more or less everything in its path. The debris from ruined buildings was blown more than a mile. The business part of the city escaped with but little damage. Fences and trees were blown to pieces. There are three persons at present known to be killed, named Mrs. Elijah Santa, Mrs. Jno. Clarkson and Charles Ross. Many were seriously and perhaps fatally injured.

Five miles southwest of here the country is laid waste and desolate. Houses, barns and fences are scattered over the prairie. Much live stock was killed or crippled. In the switch yard two freight cars were blown from the track. Timber is scattered over the entire south part of the city. In the small fish pond of Captain W. C. Smith three feet of water was entirely scooped out. The damage is roughly estimated at \$100,000 in this vicinity.

KANSAS CITY, May 14. Many singular freaks of the wind are recorded. One man had his clothes literally torn from his body, being stripped almost to his underclothing. At one house on McGee street a lady was sitting at the piano in the second story. The wind lifted the upper part of the house and left her seated in the open air unhurt and the instrument undisturbed. The loss in the city is now placed at \$300,000 or more.

ST. JOSEPH, Mo., May 14. Information from Blackow, a few miles north of here on the Burlington, Chicago and Quincy Railroad, is to the effect that a cyclone passed over Whiteville, Andrew county, last evening, destroying several farm houses, barns, orchards and other property in the vicinity. William Singley lost his house and all the out-buildings, the whole outfit being destroyed. The family took refuge in a cave and were not harmed. Simon Singley, whose farm adjoins William's, had all his property destroyed. His mother, who was alone in the house, was carried 10 or 15 rods, and died in an hour from the injuries she received.

STURGIS, Mich., May 14. A cyclone struck this place from the southeast about 2:30 o'clock yesterday afternoon, passing through the outskirts of the town, and swept everything before it half a mile wide. Chauncey Gilman, a farmer, living two miles southeast of here, sought shelter with three children in a barn, which was carried away, and all four were killed. George Runyan's house and barn, a quarter of a mile west of Gilman's, were blown down and one member of the family seriously injured.

ORONOGO, May 14. The cyclone struck the town with terrific force at 7:30 P. M., entirely demolishing the business part of the place and leaving but few buildings. G. O. Goodwin and Sadie Goodwin were killed outright and 33 persons were seriously hurt, some fatally.

Three-fourths of the town is a mass of ruins. Buildings are piled together and entangled. It is impossible to distinguish one from the other. Lumber, brick and other materials belonging to the ruined buildings are scattered in confusion over the town. The surrounding country is a mass of ruins, with here and there the mangled forms of persons injured by the terrible visitation. Three persons have been killed in the town and two in the country. Sixty are wounded, among whom are some 30 or 40 who are seriously hurt.

ST. LOUIS, May 15. The destruction by the cyclone at Macon, Mo., on Sunday night seems to have been much greater in the country than in the city. The latest advices from there say that for 15 miles southwest from Macon the storm leveled everything in its track, farm houses and in most cases all out-buildings. A meeting was held at Macon last evening to consider the condition of the sufferers.

### A Clergyman's Wife Accidentally Shot and Killed.

JERSEY CITY, May 14. The wife of the Rev. E. L. Stoddard, Rector of St. John's (Episcopal) Church of this city, was shot and killed to-day in her home, No. 95 Summit-avenue. Mrs. Stoddard was dusting the shelves of one of the closets. On one of the shelves lay a pistol. She brushed the weapon off. The trigger struck the shell below, when the weapon exploded, the ball striking her in the side of the head and lodging in the brain. She died a few minutes later.

### An Indian Council to Determine the Rights of Freedmen.

ST. LOUIS, May 15. A special session of the Choctaw-Indian Council met at Armstrong Academy, the capitol of the nation, yesterday, having been called by the principal chief, McCurtin, to consider the

freedmen question. By the treaty of 1866 between the Federal Government and the confederated Indians, the Choctaws and Chickasaws agreed to emancipate and give the usual rights to the colored people in their nation inside of two years, while the United States was to give them \$600,000 if they wanted to adopt them within that time, the money to be used to remove and settle the darkies elsewhere. The Choctaws failed to adopt them and the Government to move them, and they have been there ever since without either citizens' rights or title to the land they work. The Choctaws now desire to adopt them, and for this purpose their council was called.

### Trial of Congressman Thompson for Killing Davis.

HARRODSBURG, Ky., May 14. In the Thompson trial, after the discussion by counsel of instructions to the jury, Judge Hardin announced that if the jury believed from the evidence that Thompson, with malice aforethought, killed Davis, their verdict must be murder in the first degree. If they believed the killing was done in sudden heat of passion, then it should be manslaughter. The instructions gave no hope to the defense based on "Wrongs Thompson suffered at the hands of Davis." Hon. D. W. Voorhees spoke for the defense to-day. Great interest continues to be manifested.

### At the Great Fire to-day Phil Thompson was one of the best workers, while his jury looked on under charge of a deputy sheriff. At last accounts the fire was still in progress; loss is estimated at \$150,000.

### Officers Have a Bloody Fight with Desperados.

CHICAGO, May 15. A special report of a fight in Indian Territory last Saturday, twenty-five miles east of Ledge, says: Three hard characters, named Carson are alleged to have murdered, near the Delaware band, a short time ago, two white men, named Blankenship and Hoddlestone, and an old negro named Wiley. Last Saturday Marshal Mereshon of Fort Smith, Ark., and Constable Cutler of Grayson county, Tex., attempted to arrest the Carsons. They showed fight and exchanged a dozen shots with the officers, and Marshal Mereshon was slightly wounded. All the Carsons were killed except their father, who was released. The dead were left on the field unburied.

### A Railroad Contractor Killed by Mexican.

SAN ANTONIO, Tex., May 14. An Express special from Garcia (Mex.), a small town on the Mexican National Railroad, says: Wickland, a heavy railroad contractor on that route, was murdered Sunday night by two Mexicans. Both men were arrested. The dying statement of Wickland fully identified the murderers.

### A Miner Falls Four Hundred Feet Down a Shaft.

BUTTE, M. T., May 15. At 10 o'clock last night a miner named Wm. Miller fell down the shaft of the Original mine, a distance of 400 feet. Every bone in his body was crushed to a pulp. Death was instantaneous.

### The Trial of Jere Dunn.

CHICAGO, May 15. Mills, State Attorney, made the opening argument in the prosecution of Jere Dunn for the murder of Jas. Elliott in the criminal court this morning, his address consuming 30 minutes.

### An Army of Shoemakers Out of Work.

CINCINNATI, May 15. The shoemakers' lookout is enforced against all members of trades' unions. So far there has been no disturbance. Between 3,000 and 4,000 employees are deprived of work.

### Two Children Burned to Death.

STANFORD, Ky., May 14. The dwelling of John Martin was burned to day, consuming two of his children, aged 2 and 4 years. An older daughter in attempting to rescue them was badly burned.

## FOREIGN TELEGRAPH.

[PRESS DISPATCHES TO THE GAZETTE.]

### An Attempt to Blow Up an Ocean Steamer with an Infernal Machine.

LONDON, May 15. The Times says the particulars of an attempt to destroy a steamer plying between Liverpool and New York are just learned at the former place. It appears that just before the vessel left Liverpool for New York on her last voyage, having on board a number of emigrants, a man gave the steward a box and requested him as a favor to convey it to New York. The steward's suspicions were aroused and he consulted the captain, who ordered the box opened. This was done in the presence of the captain and officers, and the box found to contain an infernal machine. The contents of the box were thrown overboard, but the box itself retained and a note made of the address upon it. The fact of this discovery was not made known probably in New York on the vessel's arrival there, but the British Consul-General in that city was notified of it. The steamer has just returned to the Mersey from New York.

## SULLIVAN, THE SLOGGER.

The Boston Boy Will Live—He Knocks Out Mitchell, the English Champion, in Three Rounds.

NEW YORK, May 14. Notwithstanding the inclement weather, an immense crowd assembled in Madison Square Gardens, to witness the glove contest between Sullivan, the champion of America, and Mitchell, introduced as the champion of England. The holders of \$1 tickets were admitted at the Fourth avenue entrance, while holders of \$2 tickets entered at the Madison avenue door. There were about 7,000 people inside the building, and the boxes were filled with prominent club men and politicians. Roscoe Conkling and Charles A. Dana had front seats in the space reserved near the platform for the press.

The exercises opened at 8:30 P. M. by sparring between Peter McCoy and Robert Mullany. Then came a friendly set-to between John Reilly and Steve Taylor, Jim Kelly and Jerry Murray and others. The crowd becoming impatient, loud calls were made for Sullivan and Mitchell. There was great applause when Sullivan appeared on the stage in fighting costume. Mitchell was also warmly applauded.

Before time was called, Captain Williams cautioned the two men. Work was earnest from the start. Sullivan went viciously at Mitchell, and the latter, in getting out of his way fell twice. Watching his opportunity he got in a quick blow, and Sullivan went down. He got up and closed with Mitchell, and there was close fighting until time was called, and each man ordered back in his corner. Mitchell looked fresh, smiling and confident, while the breathing of Sullivan was labored, plainly showing his want of condition.

The second round was very spirited. Mitchell danced around Sullivan, and then closing suddenly upon him, drove him back upon the ropes. Sullivan got up and pursued the Englishman with caution, evidently bent upon delivering a knock-out blow. He caught Mitchell squarely in the face, and the Englishman went down quickly, and after some sharp fighting Sullivan threw him across the ropes. The latter sprang lightly to his feet, and was knocked down, and got up dazed. Sullivan pressed him and drove him to the ropes again, and threw him clear over them, the Englishman falling head down, and his feet sticking straight up in the air.

In the third round the excitement was intense. Mitchell got in some sharp body blows on Sullivan, but the latter delivered his blows with great directness and force, and the Englishman was twice knocked down. The third time he rose quite groggy, when Captain Williams rushed upon the stage and ordered the fight stopped. There was much confusion for a few minutes, but when order was restored both men removed their gloves, shook hands and were presented with bouquets of flowers, and Sullivan was officially declared the winner of the match. Mitchell was game and a good boxer, but too light to cope with a heavy weight like Sullivan. The winner took 60 per cent. and the 40 per cent. of the gate receipts, which amounted to about \$10,000.

## TELEGRAPHIC BREVITIES.

—Bismarck's health no longer causes anxiety.

—Pension payments this month are expected to reach \$5,000,000.

—The steamer Singapore is on fire in the Suez canal. Mails and passengers saved.

—A heavy snow is reported in the Black Hills to-day, the snow falling to a depth of more than 12 inches.

—Vessels arriving at Suez from Bombay are being quarantined, owing to the existence of cholera at that place.

—The mail train from Glasgow ran into the train from Cardiff at 9:15 last night. Seven passengers were killed and several injured.

—The Brooklyn bridge Trustees have fixed the toll for foot passengers at one cent. The disbursements thus far on account of the construction of the bridge amount to \$14,680,905.

—General Grant arrived at Cincinnati yesterday with the remains of his mother, accompanied by his sister and brother-in-law. The burial took place at Spring Grove cemetery without ceremony.

—During a wind storm at White Pigeon, Mich., yesterday afternoon, a frame school house filled with children was blown down. William Meek was crushed to death, and several were injured.

The document sent by the Vatican to the Bishops in Ireland in reference to the fund being raised for Parnell, says it is intolerable that the priests, much more the Bishops, should promote such an object.

—Wasson, the defaulting Army Paymaster, denies that his shortage is due to gambling. He alleges it was to make a forced loan from the Government for 60 days, to help his father during a temporary embarrassment.

### Trouble Between Chinamen and White Laborers.

VICTORIA, B. C., May 14. A Chinese riot at Lytton, on the line of the railroad, caused considerable excitement. The Chinese assaulted a white foreman, and during the night a vigilance committee of twenty whites, disguised, burst into the Chinese camp and beat the sleeping men about the heads and bodies with clubs, killing one and wounding a number. It is feared five or six will die. The Chinese are very aggressive, but the vigilance committee is condemned.

### Fears Entertained for the Safety of General Crook.

SAN FRANCISCO, May 15. An El Paso (Texas) dispatch of last night says: Serious fears are felt by Mexicans as to Crook. It is generally conceded that he will have a brilliant success or great defeat. Janos, 150 miles southwest of here, in Chihuahua, is a Mexican point from which military news must come. Army officers have been unable to obtain decisive intelligence. Crook was expected there nearly a week ago. It is now known that he has undertaken to penetrate the heart of the mountains directly southward. Janos is a military station, and so related topographically to the mountains that all trails must reach or pass near by.

SAVINGS BANK CASES.

What Has Been Done so Far in the District Court.

LAST EVENING'S SESSION.

After having obtained a jury, the Court immediately ordered the reading of the indictment, which proved to be one of the most voluminous and explicit documents of the kind ever presented in this county. District Attorney Alexander then, in a clear and dispassionate manner, proceeded to state the case on the part of the prosecution, after which the Court adjourned until to-day at 10 o'clock; the jury being placed in charge of an officer, and not allowed to separate.

Court convened this morning at 10 A. M., Judge Rising presiding. Counsel for prosecution introduced in evidence the certificate of incorporation of the Reno Savings Bank; objected to by General Clarke for the defense, upon the ground that no offense having been charged in the indictment no evidence can be submitted showing any crime. The General argued that so far as defendant Crockett is concerned as Trustee and Vice President of the bank he could not, under the statutes of this State, commit the crime of embezzlement for the reason that he was neither "a servant, a clerk, an apprentice, or other person bound or hired." Col. Ellis for the prosecution argued that the acts of both defendants come clearly within the provisions of the act of 1879. The Court indicated a belief that no offense has been charged in the indictment, but without deciding that point expressed a willingness to allow plaintiffs to introduce evidence going to establish the fact that defendants were, under any laws of this State, officers or servants of the bank. Recess taken until 1:30.

AFTERNOON SESSION.

Col. Ellis read to the jury the certificate of incorporation of the bank.

M. C. Lake sworn—Acted as President of the bank from its commencement. L. L. Crockett was elected as Trustee and Vice President; Jas. H. Kinkaid acted as manager; Bachelier was Cashier. The book containing the by-laws and meetings of the Board was offered in evidence.

Examination of Lake continued—Was present at meetings of the Board many times, but can't tell how often. Was not at the bank the night of the 23d nor the morning of the 24th of June, 1880. James H. Kinkaid performed his duties as prescribed by the by-laws, so far as I know. Kinkaid's salary was from \$150 to \$250 per month. Do not know that Crockett ever had any control, or exercised any control, over the funds of the bank.

Prosecution offered a series of letters from Crockett to Kinkaid, pertaining to bank matters. Ruled inadmissible.

Prosecution offered to show that certain moneys and securities were in the bank on the 23d of June, 1880. Objected to by the defense and objection sustained. A lengthy discussion ensued not of interest to GAZETTE readers.

The prosecution introduced a book containing the by-laws and rules governing the bank, to show that Kinkaid and Crockett were the servants of the corporation. The Court held that there was nothing in the evidence which showed that Crockett was the servant of the bank and held that he was eventually out of the case.

Judge Rising said he would allow the prosecution to go on with their evidence, and take the point raised by defense relative to Kinkaid's position under advisement until morning.

Benediction, Rev. A. B. Palmer.

Free Transportation.

The Carson & Colorado Railroad will furnish free transportation from the Mound House to Hawthorne for all material used in constructing the new court-house of Esmeralda county.

JANAUSCHKE.

The Great Artist who Will Appear in Reno Next Week.

This eminent tragedian, who today stands without a peer on the English stage, will appear at the Nevada Theater, for one night only, Tuesday, May 22d, on which occasion she will appear in her great character, Mary, Queen of Scots, in Schiller's famed play of "Mary Stuart." Janauschké's company which supports her is one of the most powerful now traveling, and is headed by the well known actors Geo. D. Chaplin and Alex. H. Stuart, a juvenile leading man, one of the best on the stage. An exchange gives the following article on Janauschké's impersonation of Mary Stuart:

"To criticize Janauschké is to look for spots on the sun with the unaided eye. It is rarely so brilliant a dramatic star favors New Haven as graced the Opera House stage last evening. That the enterprise of the management was appreciated was indicated by the large audience which filled the house. Schiller's great historical tragedy, 'Mary Stuart,' affords Madame Janauschké a wide scope for her powers; and she gave the character of the unhappy Queen of Scots a grand delineation. Her commanding presence, evincing her royalty even in captivity, her well developed voice, making her portrayal of conflicting emotions, her humility before Queen Elizabeth, her seething invective when taunted by the latter, her withering scorn and at times eloquent silence, and at last her meek submission to her inevitable fate combined to produce a powerful interpretation of, probably, the strongest character in her repertoire. Janauschké's company is rendered sufficient support, and is the strongest combination that has visited this city for some years."

THE BEST EARLY CHICKENS

Practical Hints That May be Applied to the Barnyard.

The quickest-growing chickens are the Plymouth Rocks and Langshans. The best cross known for producing quick and large chicks is to mate a Houdan cock with a Brahma hen. The pullets of this cross should be kept till the next season and bred to a Plymouth Rock cock. The excessive weight of four and one-half pounds has been known to be attained from chicks three months old by this cross, and although such weight cannot always be relied upon, the experiment demonstrated that not only was the cross a good one for inducing early maturity and increase of carcass, but a fine chick for the table is also the result. Among other good crosses may be mentioned the mating of Houdan cocks crossed with Langshan hens, or the Langshan cocks with any kind of good, square-bodied hens. The Plymouth Rock cock makes good crosses with all the breeds, especially for market chicks. The best cocks for such purposes, therefore, are those of the Houdan, Langshan and Plymouth Rock breeds.

LASSEN ITEMS.

Called from the Columns of Our Susanville Exchange.

Advocate Items of May 10th:

The measles have now made their appearance in Susanville.

Leonard Grass has bought the David Rice place near Milford.

J. A. Gilman of this place is now in Surprise Valley buying mutton sheep. He has purchased about all the mutton for sale in that valley.

Last week Wm. Harrison purchased 90 head of horses from the Woods Bros. He contemplates taking about 250 head to Dakota soon, which he will offer for sale there.

The saw mill belonging to Mrs. Fairchild at Milford was entirely consumed by fire last Saturday night. Mr. Loomis had the mill leased, and had been at work there all day, leaving about six o'clock. There was a low fire burning in the stove when he left, and it is hardly probable that the fire caught from this. The mill had just been put in good running order, and its destruction is a heavy loss to Mr. Loomis and Mrs. Fairchild.

Pullman Cars.

Since 1869, when a train of Pullman cars was run at stated intervals over the Central Pacific Railroad for a short time, no Pullman cars have been run regularly over the road, the silver palace cars used for sleepers being the property of the company. Now, negotiations are in progress for the running of Pullman cars on the Central and Southern Pacific roads, and if terms are agreed upon such cars will be run regularly on the Central Pacific as they are on the Union Pacific.

Too Much Salt.

A big brown bear at the Black Hills found and ate a bushel of salt with great gusto. An hour later he was seen at the bank of a creek, assiduously drinking, and occasionally raising his head to look up stream and see if the supply of water was likely to hold out.

Sleighing in the Merry Month of May.

Quite a lot of snow fell in Virginia last night, and early this morning several festive stockers were out for a sleigh-ride.

THE NOBLE RED MAN.

A Dusky Reporter Gives the Latest News.

Johnson Sides dropped in this morning and sat down on the editor's hat with the remark, "You put down what I say. I been to Walker's river. Injun don't putty well. Makum heap fish. River putty low. Catch'em most on a net in the lake. Nothin' for Injun there but fish—no hay, no corn. No water to irrigate the reservation. River filled up with sand, no more than knee deep. So I went to Hawthorne. Some Injun going out to chop'em timber; some goin' out to work for people. After I went out most to Belleville; next to Soda Springs. Injun all makin' borax with a machine like they was diggin' potatoes. So I come back to Walker lake and take sick, so I keep away longer; but I back now. All Injun all right out there. All satisfied to work and make something. The men in Mason valley want to buy part of the lake, but the old Chief Wasson say he won't sell 'em at all. They offer \$800 for part of the lake, but he won't answer such a question. He won't let 'em touch the lake at all. White man said he would write to Washuton to depatment, but old Chief said no use to write. He die on the reservation. He couldn't give him a couple of ear-load of money. He couldn't touch the lake."

"Next Sunday there will be big camp meeting up side of Walker Lake by bridge where coons cross. Will last a week—mebbe more. Sent for Injuns to Mono Lake, and Owens River, Austin, Honey Lake and all over. Have a good time; sing, dance, play ball and have just the same as the State Fair. Mebbe have boss race. The Injuns like Jim Gregory pretty well. He is trader and is a good man."

Sides says it often snows nearly to summer, and old Indians say it has not been an unprecedented spring by any means.

POULTRY MANURE.

Something That is More Valuable Than the Best of Guano.

Farmers do not seem to realize how important it is to save and properly apply the poultry droppings. When carefully saved, 25 pounds will furnish sufficient to manure an acre of corn, producing an effect equal to that of the best commercial fertilizer. Poultry manure is identical in action with guano, both being very rich in ammonia, and therefore powerful plant stimulants. For this reason it is not safe to use the droppings without first mixing them with other substances, such as pulverized clay, dry loam or land plaster. A handful of this home-made fertilizer applied to a hill of corn or potatoes will give it such a send-off that the effect will be visible throughout the season. It may be dropped directly on potatoes, but for corn it is thought best to spread it on the hill after planting. It is good also for garden truck, especially for such crops as are to be forced for the early market. Let farmers think of this and see if they cannot reduce their bill for artificial fertilizers, and at the same time obtain a much more reliable article than that which they have been accustomed to buy.

The plan for saving them commonly adopted in New England is a good one. It is to have a platform of boards under the roosts on which they collect, and from which they are gathered daily or weekly, and are preserved dry in barrels or bins until desired for use. The platform should be sprinkled with dry earth each time the droppings are removed. In order to prepare them for use they may be passed through a sieve or quarter-inch mesh, and mixed with two parts of dry earth, or, if plaster is used, mix with equal parts of plaster.

Bucked For His Own Amusement.

Jacob Steiner approached his cayuse this morning with a view to mount him and pursue his journey to his home in Sierra Valley. Just as he rose in the stirrup the beast began to buck, and Mr. Steiner stepped to one side and let him buck. He rose and fell like a jumping jack, and bucked till he went over the hill out of sight. Mr. Steiner got a horse from Lee to follow him with.

The Rose Boys' Ball To-night.

The young men of Washoe Hose Company, No. 2, will give a ball to-night at the theater. They have made great preparation for the occasion, and guarantee that all who attend will thoroughly enjoy themselves. The boys are always on hand in case of need, and should be encouraged.

Something That Beats Reno.

The *Silver State* says: The Reno GAZETTE gives the number of cattle shipped from Reno during the Winter and Spring up to date at 422 cars, aggregating 7,878 head. Humboldt can see that, and in the language of General Schenk, raise it about 15,000.

Double Up.

The insurance companies have made a change in their rules so as to charge for risks on both sides, where there is more than one wooden house within 100 feet. Heretofore the rate was the same for one risk or more.

THE WEATHER.

Winter Climbing into the Middle of Summer.

The hills surrounding the valley are again wearing a white jacket, almost equal to any they showed during the past winter. The peak of Mount Rose is entirely covered, and in some places the snow must be very deep.

All is Not Well With the Well. The well at White Plains is said to be in trouble. The drills have stuck and broken off at a depth of 600 feet.

THE SAN FRANCISCO  
**EXAMINER!**  
—THE—  
**BEST NEWSPAPER**  
ON THE PACIFIC COAST.

THE SAN FRANCISCO EXAMINER IS THE best and most reliable newspaper published on the Pacific Coast. It contains all the latest news of both the Old and the New World. The Telegraphic Reports are the latest and most reliable. In Local News it is far superior to any other, and its Editorials are admitted to be the ablest of all.

The EXAMINER has always been, and always will be, the friend and champion of the people as against combinations, cliques, corporations, or oppression of any kind. It will be independent in everything, neutral in nothing; fair and impartial to all parties, yet exposing corruption wherever found, and working with fearless endeavor to promote and protect the interest of the great public whom it serves. In whose interest it depends for its support.

THE DAILY SAN FRANCISCO EXAMINER including the Sunday edition, sent to any part of the United States (post-paid) for **SIX DOLLARS PER YEAR.**

**OMAHA WEEKLY BEE**

SPECIAL INDUCEMENTS.

Since the distribution of premiums is over and our premium list closed until next year, we are yet anxious to increase the circulation of the WEEKLY BEE to such a number as to greatly reduce the cost of the paper and to furnish it to our subscribers at a mere nominal price. In order to do so we offer the same for the balance of the year, until January 1, 1884, for ONE DOLLAR. This is the lowest price ever asked for a western journal of its size, and all should avail themselves of this liberal offer.

**TAILORING ESTABLISHMENT.**

**MY REPUTATION AS A TAILOR**

is already established. "The Boss Tailor" lives in all country towns. They advertise shop-worn auction goods; they dispose of cloths not saleable in the larger cities, and are continually trying to mislead their patrons by false representations. Reno is no exception to the rule. She has a "Boss Tailor," but look at a suit made by the Virginia street "Boss" and you will immediately see the point.

**MY STOCK**

is carefully selected. It is of the very best of Foreign and Domestic Manufacture and I am prepared to make suits of the latest style, cut from the finest goods, at prices never before equalled. My work speaks for itself. I guarantee a fit in every case. Call and examine my samples and prices. Leave your measure and be happy. Don't be misled by the "Boss" You will always regret it if you do. Before giving your order call at my shop and see for yourself.
